

I Create What I Believe!

Self-Awareness Art Program

*A four day workshop for
parents, educators, mental health practitioners and individuals seeking personal development*

No previous artistic training or any realized artistic ability is needed.

We begin by establishing the program's foundational concepts: where beliefs come from, how beliefs mold one's life, and how to transform stifling beliefs in the subconscious mind to allow for new growth. Hands-on exploration and adaptation of the exercises will guide the participants through the practical application of these concepts. You will leave with an understanding of where beliefs come from, how they can either support or impede success, and how to use this program to reconfigure beliefs that inhibit your growth. This workshop is offered in a two-day or four-day format.

The advantage of the four-day event is there is more time for hands-on practice, integration and adaptation of the material. For individuals that want to use these tools in the classroom, therapeutic or home situation, the four-day event is highly recommended.

Date: March 29, 30, 31, & April 1, 2008

Location: Shelburne Falls, MA

**Time: 12 to 5:00 pm Saturday and Sunday
Monday and Tuesday-TBA**

Fee: Two-day fee: \$300.00 Four-day Fee: \$360.00 (sliding scale also available)

(Fee includes a three-book kit- a \$50.00 value)

To register contact: Richasu Young 207-615-1745 or richasu@gmail.com

Space is limited-preregistration is necessary

(No one will be excluded because of lack of funds)

(Excerpt from the *I Create What I Believe!* foreword)

"...Nancy Marie's art exercises provide children and adults with an alternative way to consciously release the stress or pressure that is building up in their system. These exercises enable the participants to both express their emotions and generate more constructive responses. They are so simple and adaptable and can be used in almost any situation to effectively redirect energy without having to consciously focus on the prevailing situation. These activities can actually become part of a child's behavioral "download" wherein they automatically provide constructive responses in place of current destructive pre-programmed responses they may be engaging now. Constructive pattern interrupts release stressful pressures, clear perceptions, and pave the way for more wholesome behaviors and resolutions."

—Bruce Lipton, Ph.D., Author of *The Biology of Belief: Unleashing the Power of Consciousness, Matter, and Miracles*

Nancy Marie is a driving force for self-actualization and the author and illustrator of three books: *Out of the Box and Into Yourself!*, *Passage of Change*, A fable based on the research of Bruce Lipton, Ph. D., and *The Beckoning Song of Your Soul*, A Guidebook for Developing Your Intuition. She is also the creator of the *I Create What I Believe!*, Self-Awareness Art Program.
